with- dismantling of Administered Pricing Mechanism (APM) in the petrcleum sector effective 1 st April, 2002, the prices of petrol and diesel have been decontrolled. The oil companies are now fixing the prices of these products after taking into account the international oil prices. Thus, the fluctuarons in the international oil prices are likely to get reflected in the domestic consumer prices of petrol and diesel. Taking into account the recent softening of international oil prices, the oil companies have reduced the retail selling prices of petrol and diesel in the country effective 16th April, 2003.
